With the help of local and foreign elephant experts, Pinnawela started a scientific captive-breeding programme for elephants. The free movement of the herd enhanced the chances for respective individuals of both sexes to get together and mate. The nearby river played a dominant role in this regard, and in 1984, the first baby of Pinnawela was born. The success story of Pinnawela has drawn the attention of scientists from all over the world. A considerable number of books and research articles on Pinnawela have been published in several languages. ### What is Perahera?

The Perahera, also known as the Esala Perahera, is a grand cultural procession in Sri Lanka. It is held annually to honor the Sacred Tooth Relic of Lord Buddha, which is housed in the Temple of the Tooth Relic (Sri Dalada Maligawa) in Kandy.

The Perahera features a majestic parade of elephants adorned with lavish garments, along with traditional dancers, drummers, acrobats, and various other performers. The procession also includes representations of different regions of Sri Lanka, showcasing the country's rich cultural diversity.

The event usually takes place over several nights, with each night's procession being more elaborate than the previous one. In 2024, this event will take place from 10 till 20 August. The highlight of the Perahera is the Randoli Perahera, which takes place on the final night and is the most grand and spectacular of all.

The Perahera is not only a religious and cultural event but also a significant tourist attraction, drawing visitors from around the world to witness its splendor and beauty.

Kindly note that the Compulsory Perahera supplement is only collected in Kandy's hotel.
